### **Report on Value Education and Professional Ethics**

Mahendra Arts & Science College is known for imparting value based Education to first year UG and ECC for PG students. The role of value education was envisaged as a formation and creation of awareness in the learners' community that skills and ethical values are essentially complementary. The curriculum is engaged with rigorous investigation of ethical issues, enlightened dialogue and the dissemination of knowledge that will lead to inform moral choice.

The Departments conduct classes, workshops in order to create an intellectual hub for the intelligent and the youth in the areas of ethics, education, social responsibility and transformation. Students have found this course to be extremely viable, there has been an exchange of information, and they have resolved contemporary issues. Furthermore they have also contemplated future challenges, with respect to how the millennial are losing touch with values and ethics. This course helps them to get back to their roots before they venture out into the corporate, academic and professional world.
