<b>Name of the Activity</b>	: Plastic Awareness Programme at Elampillai.
<b>Issues Year of the Activity</b>	: 8/08/2018
<b>Department / Organization</b>	: Computer Science & Applications
<b>No of the Students Participated</b>	: 66
<b>No of the Students Staff</b>	: 04
<b>No. of Beneficiaries</b>	: 70

**Report:** Plastic pollution is caused due to the accumulation of the waste plastic material in the environment. Plastic is a non bio-degradable substance. It doesn't get disposed off in the soil or water and its effect is worse when burnt. It is thus a challenge to dispose it off. It remains in the environment for hundreds of years and causes air, water and land pollution. It is hazardous for the humans, animals as well as the plants. Several animals, birds and marine creatures die due to plastic pollution each year.

To create awareness about Plastic waste the Faculty members and the students of Computer Science and Applications department have organized a rally "**Say no to Plastic**" on 18.08.2018 in Elampillai. We have started the rally by 10.00 am in Elampillai Santhaipettai via Government Hospital and Bus Stand finally reached the Santhaipettai. The rally is headed by Mrs.M.Sumathi, Head Computer Science and Applications. 50 Students have Participated accompanied by 4 Faculty members.

### **7.1.5. LANDSCAPING OF TREES AND PLANTS**

**LANDSCAPING OF TREES AND PLANTS NUMBER OF TREES AND PLANTS AVAILABLE IN CAMPUS.**

Totally 99 floral species were documented from Mahendra Arts and Science College campus.

- The campus is green with lush gardens, lawns and plants wherever there is open space.
- The eco-friendly ambience of the campus is a noteworthy feature of MASC Green belt is developed in 45,000 sq. ft. area. Greenery and shade area occupies 30% of the total campus area.
- Special initiatives are taken by the department of Biotechnology to plant new saplings every year as a part of Eco – Club. Altogether, there are 99 plant species in the campus.
- The green campus improves aesthetics, provides shades, creates outdoor learning space, improves air quality, lowers stress levels and creates a campus brimming with nature.
- The proper placement of trees and shrubs reduces heat loss in the building during winter and less requirement of air conditioning during summer.
